STATE OF THE ART SECURITY SOLUTIONS

# DEFENDER 360™ ARTIFICIAL INTELLIGENCE SURVEILLANCE TECHNOLOGY

Quantum Radar provides enhanced coverage of remote unattended areas.

Quantum 360 Fixed Cameras provide live streaming 360-degree video in real time. It can be mounted in a fixed position almost anywhere.

Quantum Hybrid cameras have Extreme range, zoom capabilities and bi-spectral day and thermal vision with a single connection.

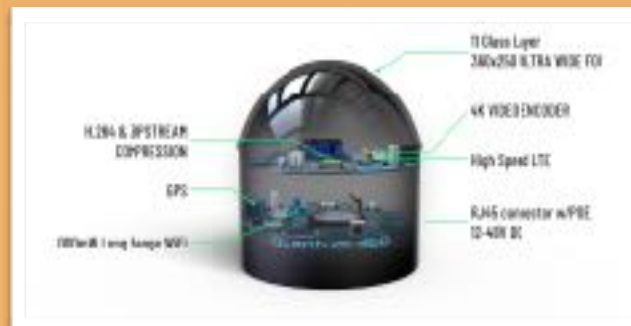

# VERSATILE SURVEILLANCE EQUIPMENT

These cameras feature artificial intelligence operability, drone detection technology, drone mounting, 360 body cams, 360 dash cams, geo fencing detection, as well as radar capability. These products work in concert with one and another and are weather proof. They are the eyes and ears of KnightHawk Protection and can be utilized to serve any security and or surveillance needs.

These state of the art technologies and cameras enable Knighthawk Protection virtual patrol capabilities monitored by professional staff and served by highly trained security officers. Our Proactive Surveillance System is second to none.
